

Epileptic Disorders Internship Program

We are seeking a stellar EEG and/or epilepsy clinical fellow to serve a 6-month term as EPD Intern starting in July 2022. **Applications are due June 1st, 2022.**

Please see eligibility criteria below along with responsibilities and instructions to apply.

Responsibilities will include reviewing manuscripts, assisting with the journal's social media efforts, generating new ideas for the journal, leading an education research project, and participating in monthly meetings.

Trainees currently undergoing EEG and/epilepsy clinical fellowship anywhere in the globe are welcome to apply. Applicants must be proficient in English.

Please email fnascimento@mgh.harvard.edu with the following:

- 1) CV.
- 2) Personal statement with a limit of 500 words which must include why you're interested in participating in this program and an idea for an education research project to be led by the applicant during the program.
- 3) Two letters of recommendation, one being from your clinical fellowship program director.

Select applicants may be invited for a Zoom interview at a later stage of the application process.
